Welcome!

Thank you to all our customers who have instilled their trust in our program. We appreciate your continued support. Welcome to any first-time customers as well!

As black Angus cattle continue to bring record high prices, you have come to the right place to find some high-quality Angus genetics. We continue to use balanced trait sires that are at the top of the Angus breed. This year's offering includes some of the first sons to sell from Bedrock, Cherokee and the \$295,000 Prosper bulls. We offer bulls that have maternal ability, carcass quality and performance to maximize the profits for our customers. We have always demanded our cow herd to be functional and have top maternal traits. We will continue to source and use the top Angus genetics in the breed.

Our herd was established in 1972 with a primary focus on balanced trait selection. This continues today with AI breeding to the top bulls in the industry. The bulls offered in this sale represent the top 30% of our calf crop. As always, the bulls have been culled in May, August, October and December. This ensures only the top bulls make the sale.

You can view the videos of the bulls on DVAuction and on sale day. You can watch and bid live online through DVAuction as well. Contact Logan Hoffman at 701-388-2618 with any questions and to preregister for the sale. We will also be able to take phone bids if you prefer. Please give me a call prior to sale day to get things set up for your phone bids.

Thank you for showing interest in our program. As always, we offer free keep and free delivery in North Dakota and adjoining states after their semen test in April. The bulls are guaranteed 100% to be fertile and carry our breeding guarantee. A replacement will be provided if any problems should occur before September 1.

Thank you,

The Thompsons

A beefy, high maternal bull with good carcass traits. Will sire market-topping feeder cattle and heavy milking daughters.

THOMPSON ANGUS WILL BE OFFERING 100 HEAD OF REPLACEMENT HEIFERS

We will be selling 100 head of open Angus heifer calves on Thursday, February 5, 2026, at Napoleon Livestock. The heifers come right from the heart of our herd!

They have been Bangs vaccinated and checked open and breedable.

They are maternally bred with bloodlines from Sitz, Connealy and SAV genetics.
