Facebook: Thompson Angus

Welcome!

We're excited to offer this set of top-notch, high quality bulls! It is a great time to surround yourself with quality Angus genetics. Bulls that have extra performance, maternal ability and carcass quality will be represented in the offering. We have always demanded our cow herd to be functional and have top maternal traits. We like to select multiple trait sires that will produce high quality seedstock.

For the last several years, we have finished out some of our steers in the ND Angus University Feedout program in Carrington, ND. In the past 10 years, our steers have placed first, second and third in the performance and carcass division. While we haven't prioritized carcass merit in our breeding selection, we have still captured the premiums at the Feedout each year.

Our herd was established in 1972 with a primary focus on balanced trait selection. This continues today with AI breeding to the top bulls in the industry. The bulls offered in this sale represent the top 30% of our calf crop. Once again, the bulls have been culled in May, August, October and December. This ensures only the top bulls make the sale.

You can view the videos of the bulls on DVAuction and on sale day, you can watch and bid live online through DVAuction as well. Contact Logan Hoffman at 701-388-2618 with any questions and to pre-register for the sale. We will also be able to take phone bids if you prefer. Please give me a call prior to sale day to get things set up for your phone bids.

Thank you for showing interest in our program. As always, we offer free keep and free delivery in North Dakota and adjoining states after their semen test in April. The bulls are guaranteed 100% to be fertile and carry our breeding guarantee. A replacement will be provided if any problems should occur before September 1.

Thank you,

The Thompsons
